## GRADE 6 – ENGLISH COMPOSITION

### SAMPLE ANSWER

I was very excited to accompany my mother to the market. With my small basket of unripe bananas, I staggered behind her. The morning sun was bright and the road was already busy with people going to town. I tried to keep up with my mother but my basket was heavy for me.

On the way, I saw many interesting things such as traders arranging vegetables, fruits, and clothes. I almost stopped to admire a stall selling sweet oranges, but my mother called me to hurry up. When we finally reached the market, I was amazed by the noise of sellers calling customers and the smell of fresh food everywhere.

My mother bought tomatoes, onions, and flour. She also sold some of our bananas, and I was very happy when a customer praised them for being fresh. I helped her carry the shopping bags and she thanked me for being responsible.

After finishing, we walked home together. I felt proud because I had learned how to behave in the market and help my mother. That day became one of my happiest experiences.
