Answer ALL questions in this section

TASK 1: LISTENING AND SPEAKING

Teacher says:

I am going to read for you a story. Listen to it carefully and then answer the questions that follow.

Two children, Fatuma and Malewa, planned to attend a celebration the following day.

Malewa asked,

"Tell me more about the celebration tomorrow?"

Fatuma answered,

"We shall celebrate Jamhuri Day tomorrow, 12th of December. On this day, we remember the day our country gained independence."

Malewa said,

"My teacher said there are more national celebrations in our country. He mentioned Madaraka Day on the 20th of October. I would like to be part of all these celebrations."

QUESTIONS

1. What celebration were the children planning to attend?
2. Which other national celebration has been mentioned in the story?
3. What are the names of the children in the story?
4. Why was the celebration important according to the story?

TASK 2: READING ALOUD

"How does cholera spread?" Wawi asked the doctor.

"Cholera is a waterborne disease. When water becomes dirty because of pollution, bacteria spread quickly. Unwashed raw fruits and vegetables might also carry germs. Sometimes farmers may spread cholera when they use contaminated fertilizers," the doctor explained.

"It sounds dangerous. Hygiene practices would help keep cholera away," Wawi explained.

"Sure," the doctor said. "All of us have a responsibility to keep diseases away. What do you think we can do to keep cholera away?"

"We should wash our hands frequently and clean the environment regularly," Wawi said. "I think we need to get the information to the community as soon as possible. Cholera can kill if it is not treated on time. We don't want an epidemic to break out. Cholera can spread like wildfire!"
